Pinnacle Installing PBX For New Combo EVEN / STAYBRIDGE SUITES Dual Branded Hotels

EVEN / Staybridge Suites Hotels
Corner of Mercer St and Fairview Ave N
Seattle, Washington 98109

Recently opened the new 123 room EVEN Hotel is adjoined by the 112 room Staybridge Suites Hotel combining the optional lifestyle features EVEN or upscale Staybridge Suites for extended stay leisure or business travelers at the same location. Both hotels offer their signature features, plus meeting spaces and parking.

The dual-branded hotel model allows for operating and building efficiencies yet doesn't compromise the distinct experiences the EVEN Hotels and Staybridge Suites brands deliver to their guests.

Pinnacle installed the ComXchange PBX solution by 360 Networks with separate provision for each hotel's operations.

"It's interesting to see how the different hotel brands are integrating the various flag combinations on this new co-branding hotel model, says Bill Mitchell, Pinnacle CEO/VP Cloud Solutions, "we are seeing a lot of different variations along with class of service differences. It makes it a little bit of a challenge to provide the right equipment balance as a centralized solution. Fortunately, our in-house design staff can create a one-of-a-kind configuration using our proprietary Hotel360 integration components."
