Pinnacle Installs New Mitel 3300 PBX & Telephones For Waldorf Astoria's Legendary Roosevelt Hotel, New Orleans

THE ROOSEVELT NEW ORLEANS
130 Roosevelt Way
New Orleans LA

The legacy of the 125-year-old landmark hotel lives on as it continues to set the standard for southern grandeur and luxury in each of its 504 rooms and specialty suites. From the legendary Waldorf Astoria Spa to the elegant rooftop pool area with impressive city views to the bars and restaurants, The Roosevelt Hotel is the center of extravagance in the Canal Street region of New Orleans.

Pinnacle installed a Mitel 3300 PBX voice solution with upgraded options and all new telephones throughout the hotel. "It's always a bit of a challenge to install new technology into a structure build in 1893, says Don Roach, Pinnacle National Account Manager who secured the project. We must take special precautions to insure we minimize our installation's impact on the original building elements and architectural features."

"We love doing projects on these historic landmarks, says Bill Mitchell, Pinnacle CEO/VP Cloud Solutions, we have a whole project portfolio of incredible hotels that were built over a hundred years ago. I'm proud of our installation teams and the special skills and techniques they have developed of doing these sensitive installations mindful of preserving critical historic aspects. It takes a special expertise."
